

# A.S.A.P.<sup>®</sup>

All Surface Access Polishers

## More Shine. Less Time.

A.S.A.P.<sup>®</sup> Polishers are a simple, two-step polishing system that provides a high luster and shine in as little as 30 seconds.

- **All Surface Access:** The spiral shape allows access to all surfaces of the restoration; simplifying the procedure and reducing the need to inventory multiple systems.
- **Fast, High Shine:** Both polishers in the A.S.A.P. system are diamond-impregnated to provide a 67% faster polishing time and an 86% higher gloss than a leading polishing system<sup>1</sup>.
- **Durable:** A.S.A.P. Polishers can be autoclaved up to 30 cycles, making them remarkably durable and cost-effective\*

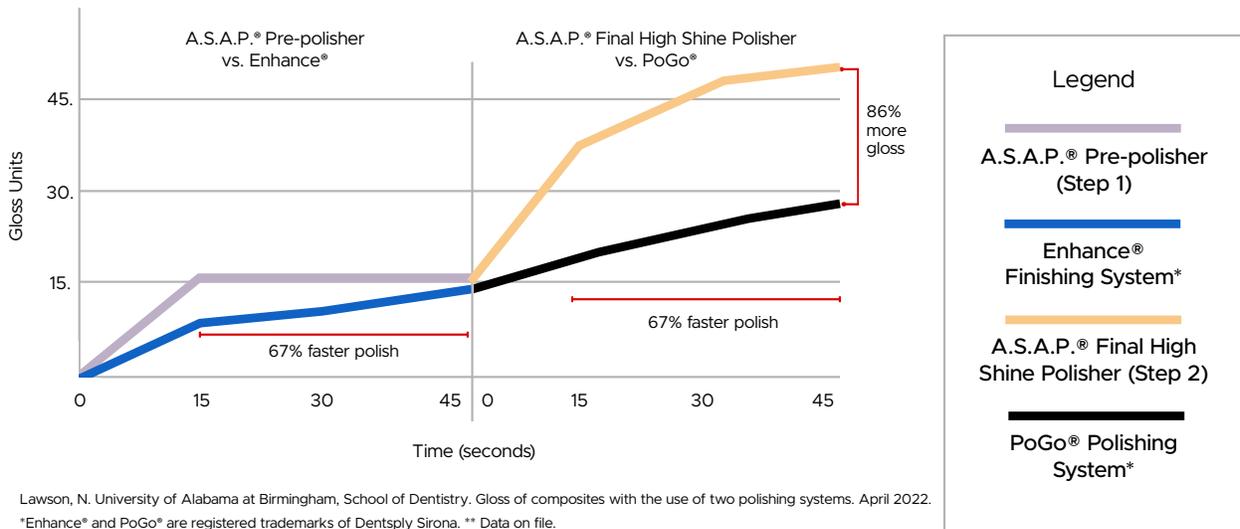

\*Placing excessive pressure on the polisher will lead to premature degradation. The polishers will also wear faster on harder indirect surfaces.

<sup>1</sup> University of Alabama at Birmingham, School of Dentistry April 2022. Gloss of composites with the use of two polishing systems.

## Proven Performance

A recent university-based study,\*\* comparing the gloss produced by A.S.A.P. Polishers (Clinician's Choice<sup>®</sup>) and Enhance<sup>®</sup>/PoGo<sup>®</sup> (Dentsply Sirona) found that A.S.A.P. Polishers produced a higher gloss results, after 30 seconds, than Enhance and Pogo did after 90 seconds.

### Maximum Gloss Per System

“A.S.A.P. Polishers save chair time by quickly polishing porcelain and composite restorations in **less than a minute.**”

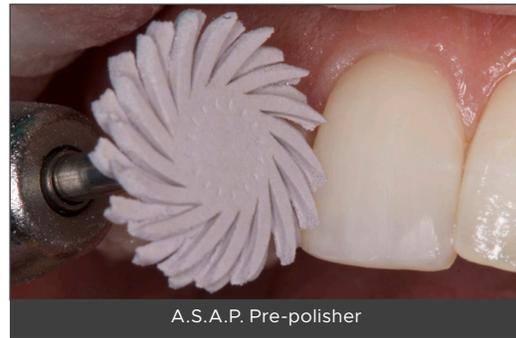

- Danièle Larose, DMD, AAACD
